Announcement – Atlanta Increased Security Measures

We are aware of the security incident that took place the afternoon of June 29, 2022, and are working with the police to investigate the incident and ensure all appropriate action is taken. If you have any tips or knowledge regarding the incident, you can submit them anonymously at 1-888-753-5020.

We have made significant investments in fencing, security cameras and building security over the past several months. We are also making the following security improvements immediately:

- All employees, contractors and visitors must stop at the security entrance and provide their full name to the security guard prior to entering and leaving the premise.
- Exterior building doors will remain locked at all times.
- Locks are being added to doors that did not have locks previously.

We are researching additional security improvements that will be implemented in the near future.

We are also reaching out to the Chief of Police and local council members to raise awareness of the security concerns in our local community and request increased patrols around our facility.

Your safety will always be our top priority. We will continue to make investments in keeping the facility safe and secure.

We appreciate all that you do and your dedication to Chairmans Foods. If you ever have concerns or security improvement suggestions, please contact myself, Don Avera, or Calvin White.
